01 / OVERVIEW

ABOUT VIET SEO

Website development, search visibility and digital infrastructure solutions for businesses.

Viet SEO has operated since 2007, providing search engine optimization, website design and technology services that support businesses online.

As search experiences evolve, our GEO and AEO services help organizations structure useful content, clarify brand information and improve discoverability across traditional search and AI-powered interfaces.

2007

Year the company began operating.

SEO + WEB + GEO

Core areas of digital service delivery.

06 / TECHNICAL EXPERTISE

TECHNOLOGY & QUALITY

Solutions are selected for project requirements, maintainability and business goals.

Web development

PHP, HTML, CSS, JavaScript and suitable interface technologies.

Databases & servers

MySQL/MariaDB, Linux environments and appropriate hosting/VPS configurations.

Technical SEO

URL architecture, crawling, indexing, structured data and performance.

Security & operations

HTTPS/SSL, access control, backups, updates and common issue monitoring.

Measurement & reporting

Relevant performance indicators without unconditional ranking guarantees.

OUR COMMITMENTS

A practical approach focused on transparent and verifiable work.

Clear scope

Deliverables, milestones and acceptance criteria are documented in proposals or agreements.

Transparent reporting

Work outputs are distinguished from business outcomes and assessed using available evidence.

Responsible expectations

No unconditional promises of first-place rankings or AI citations.

Respect for client information

Client data, account access and confidentiality requirements are handled according to agreements.

LET US WORK TOGETHER

Discuss SEO, GEO/AEO, website development or digital operations with Viet SEO.
